Amendments to the Specification

Please amend the paragraph beginning on page 6, line 13, as follows:

In the preferred embodiment, the call data is collected on the uplink at the switch 18 using Cell Traffic Recording (CTR) software. ~~CER~~CTR is a software function provided to users of an Ericsson mobile telephone switch. ~~CER~~CTR describes aspects of a phone call in a text format. This function allows real-time tracing of the activities of a phone call in progress. Although the preferred embodiment is directed to an Ericsson switch, other switching devices other than ~~CER~~CTR may be used.
